Subject: Re: Red light cameras

Bob/Nancy,

The program has my full support. I will do all I can to encourage the citizens to reject the referendum proposal to remove them, but at the end of the day the citizens will make the call.

Best wishes

John

This email is to voice our support of red light cameras. There is no proof that these cameras cause accidents. We believe these cameras should stay in place, because they will create a safer place to live and drive. Bob & Nancy Gilmore
